EDUCATION

Veermata Jijabai Technological Institute (VJTI), Mumbai 2022 – 2026
Bachelor of Technology (B.Tech.) in Information Technology

CGPA: 9.12/10

Relevant Coursework: Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks

EXPERIENCE

Axis Mutual Fund Jul 2026 – Present
Software Development Engineer Mumbai, India

- Developed end-to-end features across frontend and backend for Axis Mutual Fund's B2B and B2C investment platforms using Next.js, React.js and Spring Boot APIs.
- Refactored the Add-to-Cart investment journey by decoupling it from the QuickPay flow, improving modularity and enabling independent feature development.
- Optimized application performance through SSR, Critical CSS, dynamic imports, lazy loading and Akamai CDN caching, improving Lighthouse scores from 20–30 to 70–80.
- Collaborated with Product Managers, QA and Business teams throughout sprint planning, implementation and production release cycles.

Wizzer Advisor Pvt. Ltd. Jun 2024 – Aug 2024
Software Engineer Intern Mumbai, India

- Developed production features for an investment advisory platform using Vue.js, Node.js, Redis and Fastify within a small Agile engineering team.
- Improved backend performance by integrating Redis caching and migrating selected APIs from Express to Fastify for faster request handling.
- Implemented frontend and backend enhancements across investor-facing workflows while collaborating closely with developers during feature releases.
- Contributed to production software development using Git-based workflows, debugging and iterative feature delivery.

Techligence Jan 2024 – Mar 2024
Software Engineer Intern Remote

- Developed production features for LogicBlocks, a browser-based visual programming platform inspired by Scratch and Blockly using React.js and Redux.
- Extended Scratch VM by implementing custom block execution logic and integrating proprietary Blockly blocks with JavaScript runtime behaviour.
- Integrated WaveSurfer.js and the Web Audio API to enable waveform visualization, playback control, trimming and audio synchronization within the editor.
- Collaborated in Agile development workflows using Git, Jira and code reviews to deliver production-ready educational software.

PROJECTS

CBASNet – Satellite Change Detection Jan 2025 – Apr 2025 *PyTorch*
TorchVision, OpenCV, NumPy, Scikit-Learn, Matplotlib

- Designed and implemented an end-to-end deep learning pipeline for urban change detection using PyTorch, OpenCV and TorchVision.

- Built modular preprocessing, training, evaluation and visualization pipelines enabling reproducible experimentation across the LEVIR-CD+ dataset.
- Developed reusable training and inference modules supporting large-scale satellite image processing.

Investment Research Report Generator

2025 *Next.js*

FastAPI, Python, AWS (Bedrock, S3, Lambda, API Gateway, DynamoDB)

- Built an end-to-end LLM-powered pipeline that ingests annual reports, earnings call transcripts, and historical financial data to auto-generate analyst reports and answer ad-hoc research questions.
- Architected the system solo across a Next.js frontend and FastAPI backend, using Amazon Bedrock for generation and Lambda/API Gateway for serving.
- Reduced analyst report-generation time from 2–3 days to under 30 minutes.

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, TypeScript **Frontend:** React.js, HTML5, CSS3 **Backend:** Node.js, Express.js, Fastify **Databases:** MongoDB, PostgreSQL, Redis **Tools:** Git, GitHub, Docker, Linux, Postman **Concepts:** Data Structures, Algorithms, OOP, REST APIs, System Design

ACHIEVEMENTS

- Solved 700+ Data Structures & Algorithms problems across LeetCode, Codeforces, and CodeChef.

LEADERSHIP

- **Executive & Sponsorship Head, Pratibimb (VJTI)** – Led sponsorship outreach and event execution for Pratibimb, VJTI's annual techno-cultural fest, over a year-long tenure.
- **Core Team Member, Community of Coders (COC), VJTI** – Mentored the entire junior batch through 10–12 sessions annually and helped organize hackathons, competitions, and technical workshops as part of the core team.
