EDUCATION

Veermata Jijabai Technological Institute (VJTI), Mumbai 2022 – 2026
Bachelor of Technology (B.Tech.) in Information Technology

CGPA: 9.12/10

Relevant Coursework: Operating Systems, Computer Networks, DBMS, Distributed Systems

EXPERIENCE

Axis Mutual Fund Jul 2026 – Present
Software Development Engineer Mumbai, India

- Developed end-to-end features across frontend and backend for Axis Mutual Fund's B2B and B2C investment platforms using Next.js, React.js and Spring Boot APIs.
- Refactored the Add-to-Cart investment journey by decoupling it from the QuickPay flow, improving modularity and enabling independent feature development.
- Optimized application performance through SSR, Critical CSS, dynamic imports, lazy loading and Akamai CDN caching, improving Lighthouse scores from 20–30 to 70–80.
- Collaborated with Product Managers, QA and Business teams throughout sprint planning, implementation and production release cycles.

Wizzer Advisor Pvt. Ltd. Jun 2024 – Aug 2024
Software Engineer Intern Mumbai, India

- Developed and optimized backend services using Node.js and Fastify to support investment advisory workflows, improving API performance and scalability.
- Integrated Redis caching to reduce repeated database lookups and improve API response performance.
- Worked on API optimization and backend request handling for production investor workflows.
- Debugged backend issues and optimized server-side logic for improved application responsiveness.

Techligence Jan 2024 – Mar 2024
Software Engineer Intern Remote

PROJECTS

VJTI Connect – Campus Social Network 2025 – Present *React,*
TypeScript, Node.js, Express.js, MongoDB, JWT, Socket.IO

- Designed scalable REST APIs using Express.js for authentication, messaging, and social features.
- Developed MongoDB schemas and optimized database queries for improved read and write performance.
- Implemented secure JWT authentication and role-based access control for protected API routes.
- Structured backend services for maintainability, scalability, and future feature expansion.

LogicBlocks – Visual Programming Platform Jun 2024 – Aug 2024 *Vue.js,*
TypeScript, Fastify, Redis, Blockly, WaveSurfer.js, Three.js

- Optimized backend APIs using Fastify for improved scalability and request handling.
- Implemented Redis caching to reduce API response times in production.
- Developed scalable backend services supporting multiple Blockly extensions.
- Identified and resolved performance bottlenecks in production backend services.

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, TypeScript **Backend:** Node.js, Express.js, Fastify **Databases:** MongoDB, PostgreSQL, Redis **Cloud:** Docker, Linux **Concepts:** REST APIs, Authentication, Caching, Scalability, Microservices

ACHIEVEMENTS

- Solved 700+ Data Structures & Algorithms problems across LeetCode, Codeforces, and CodeChef.
- AWS Certified Cloud Practitioner (2024).
- Contributed to open-source projects on GitHub.
